Dan-

What about this provision in the Wis SIP? The problem is that the Wis SIP doesn't have a primary or secondary standard for SO₂-only PM 2.5 and PM₁₀ (see NR 404.04(8)).

|----------------------|--------------------------------|
| Main Heading: | NR 154.09 Emissions Prohibited |
| Subheading: | NR 154.09(1) |

Item Subpart:

Citations & Dates :

| | |
|---|--------------|
| State SIP Citation#: | NR 154.09(1) |
| State Effective Date: | |
| Federal SIP Citation#: | NR 154.09(1) |
| Federal Effective Date: | 12/28/1981 |
| Federal Register Citation#: | 46 FR 57893 |
| Federal Register Publication Date: | 11/27/1981 |

Regulatory Text:

NR 154.09 Emissions prohibited.

(1) No person shall cause, suffer, allow or permit emissions into the ambient air in excess of the limits set in these rules, except:

- (a) When an approved program or plan with a time schedule for correction has been undertaken and correction is being pursued with diligence.
- (b) When emissions in excess of the limits are temporary and due to scheduled maintenance, startup, or shutdown of operations carried out in accord with a plan and schedule approved by the department.
- (c) The use of emergency or reserve equipment needed for meeting of high peak loads, testing of the equipment, or other uses approved by the department. Such equipment must be specified in writing as emergency or reserve equipment by the department. Upon startup of this equipment notification must be given to the department which may or may not give approval for continued equipment use.

(Renumbered by the State from NR 154.09 to NR 436.03 in 1986)
